Fat-to-Fit

Commit · Level 3 · 5 days · Gym

Five days a week, nine weeks, one goal: lose fat and build a fitness base that lasts. Simple, effective exercises, a structure that never gets complicated and a clear nutrition plan — for people ready to commit to a full training week.

How to use this plan

This is your gym copy of the program: every session of the 9 weeks, phase by phase. Each training day has one page with a column per week. Fill it in on your phone or tablet, or print it.

Logging a session

☐ set to do ☑ set done

- Tick a box for every set you finish, write the weight in kg.
- Rate the session's effort 1–10 and add a note — pain, swaps, wins.
- Fewer reps than the target? Note it. That's your signal to keep the weight next week.

How hard should it feel?

- **5–6** · comfortable, 4+ reps left
- **7–8** · hard, 2–3 reps left
- **9** · 1 rep left
- **10** · nothing left — only on benchmark days

Each phase has its own target effort, shown at the top of every day.

Coaching rules

Before you start

- Check with your doctor before starting if you have a heart or lung condition, high blood pressure, diabetes, joint problems or are pregnant — or if it's been a long time since you exercised.
- Stop and seek advice if you feel chest pain, dizziness, unusual breathlessness or sharp joint pain.

Want your sessions tracked, your coach's feedback and the AI check-ins? Log online in your Code9 program — this PDF is the offline copy.

Nutrition

Protein moderate · **Fats** high · **Carbs** low

- Moderate protein, high fat, low carb: most carbs come from sweet potato and vegetables.
- Rice, pasta, gnocchi or couscous only in the meal around training.
- Fruit daily — berries and kiwi first; banana before training.

Your full targets, meal plan and grocery list: the Code9 Nutrition Guide and your AI Nutrition Coach.

How to progress inside this phase

- Week by week, add one thing: a rep, a set or a little weight — never all three.
- All sets ticked at the top of the rep range two weeks running? Add 2.5–5% next week.
- Sets missed or short? Keep the weight and own it first.
