How to use this plan

This is your gym copy of the program: every session of the 9 weeks, phase by phase. Each training day has one page with a column per week. Fill it in on your phone or tablet, or print it.

Logging a session

☐ set to do ☑ set done

- Tick a box for every set you finish, write the weight in kg.
- Rate the session's effort 1–10 and add a note — pain, swaps, wins.
- Fewer reps than the target? Note it. That's your signal to keep the weight next week.

How hard should it feel?

- **5–6** · comfortable, 4+ reps left
- **7–8** · hard, 2–3 reps left
- **9** · 1 rep left
- **10** · nothing left — only on benchmark days

Each phase has its own target effort, shown at the top of every day.

Coaching rules

Before you start

- Check with your doctor first if you have a heart or lung condition, high blood pressure, diabetes or joint problems, or are pregnant.
- New to box jumps, sprints or barbell lifts? Get them coached before you go heavy or fast.
- Stop and seek advice if you feel chest pain, dizziness, unusual breathlessness or sharp joint pain.

Want your sessions tracked, your coach's feedback and the AI check-ins? Log online in your Code9 program — this PDF is the offline copy.

Nutrition

Protein high · **Fats** moderate · **Carbs** low

- Moderate protein, high fat, low carb: most carbs come from sweet potato and vegetables.
- Rice, pasta, gnocchi or couscous only in the meal around training.
- Fruit daily — berries and kiwi first; banana before training.

Your full targets, meal plan and grocery list: the Code9 Nutrition Guide and your AI Nutrition Coach.

The phases

PHASE 1 Weeks 1–3

Functional Foundation

Build a functional fitness base with an emphasis on movement quality and endurance.

Target effort **6–7** / 10

PHASE 2 Weeks 4–6

Strength & Power Development

Increase intensity by introducing more complex movements and higher weights.

Target effort **7–8** / 10

PHASE 3 Weeks 7–8

Peak Performance

Push towards peak performance with higher intensity and complex movements.

Target effort **8–9** / 10

WEEK 9 Peak & Test

Peak & Test

Taper, test your Code9 benchmarks and finish strong.

How to progress inside this phase

- Week by week, add one thing: a rep, a set or a little weight — never all three.
- All sets ticked at the top of the rep range two weeks running? Add 2.5–5% next week.
- Sets missed or short? Keep the weight and own it first.

WEEK 9 · PEAK & TEST

Your Code9 benchmarks

Test in week 9 while you're fresh. If you did the same tests at the start, write those numbers too — this page is your 9 weeks in one look.

BENCHMARK	START (OPTIONAL)	WEEK 9
Max Push-Ups One set, full range. Knee push-ups count — note which you did.		
Plank Hold Hold with perfect form — stop when the hips sag.		
2 km Time Trial Run, jog or brisk walk — log your time in minutes.		
1-Minute Squats As many full bodyweight squats as you can in 60 seconds.		

What changed?

That's Code9. Nine weeks, done. Log your results online too — your coach uses them to set up your next block.
