Fat-to-Fit

Commit · Level 3 · 5 days · Gym

Five days a week, nine weeks, one goal: lose fat and build a fitness base that lasts. Simple, effective exercises, a structure that never gets complicated and a clear nutrition plan — for people ready to commit to a full training week.

How to use this plan

This is your gym copy of the program: every session of the 9 weeks, phase by phase. Each training day has one page with a column per week. Fill it in on your phone or tablet, or print it.

Logging a session

☐ set to do ☑ set done

- Tick a box for every set you finish, write the weight in kg.
- Rate the session's effort 1–10 and add a note — pain, swaps, wins.
- Fewer reps than the target? Note it. That's your signal to keep the weight next week.

How hard should it feel?

- **5–6** · comfortable, 4+ reps left
- **7–8** · hard, 2–3 reps left
- **9** · 1 rep left
- **10** · nothing left — only on benchmark days

Each phase has its own target effort, shown at the top of every day.

Coaching rules

Consistency beats intensity

Five sessions at the target effort every week beat two all-out ones. Hit the target, not your limit.

Progress one thing

Each week add a rep, a round or a little weight — one at a time, never all three.

Keep the rest times

Short rests on circuits, full rests on strength sets. The clock is part of the workout.

Form first

Stop a set when your form breaks. Heavier loads and harder moves come phase by phase.

Protein at every meal

You keep the muscle you train only if you eat enough protein: 1.6–2.2 g per kg of body weight a day.

Walk every day

7,000–10,000 steps on top of training does more for fat loss than an extra session.

Before you start

- Check with your doctor before starting if you have a heart or lung condition, high blood pressure, diabetes, joint problems or are pregnant — or if it's been a long time since you exercised.
- Stop and seek advice if you feel chest pain, dizziness, unusual breathlessness or sharp joint pain.

My settings & starting weights

In your first week, go through every lift with a light weight and write down your setup — seat and pad numbers on machines, grip or stance on free weights — and the weight you start with. Next time you set up in seconds.

Every lift, every time

- **Machines:** line the moving joint up with the pivot (the coloured dot), pin all the way in.
- **Free weights:** same grip and stance every session — note it here.
- **Start weight:** one you could lift 3–4 more times than the target.

How to move

- **2 seconds** up · **1 second** hold · **3 seconds** down.
- Never let a weight drop or a stack slam.
- Breathe out as you push or pull.
- Pain (not effort)? Stop, lighten or shorten the range.

EVERY WEEK

Staying on track

Start each week here: read the line, do the one small action and tick it, and write your if · then plan for whatever could get in the way. Week 3 is where most people stop — the shaded rows are your milestones: week 3, halfway and the final week. R is the bonus Reset week.

Never miss twice
Missing one session is life. Missing two in a row is the start of quitting — so the session after a miss is the one that counts.

Plan it like a meeting
Decide the day and time for every session at the start of the week. "When I have time" never comes.

If · then
Name what could get in the way, and what you'll do instead. "If I work late, I'll train at 7 am."

Bad sessions count
A short or light session on a bad day keeps the habit alive. Showing up beats a perfect plan.

Nutrition

Protein moderate · **Fats** high · **Carbs** low

- Moderate protein, high fat, low carb: most carbs come from sweet potato and vegetables.
- Rice, pasta, gnocchi or couscous only in the meal around training.
- Fruit daily — berries and kiwi first; banana before training.

WEEK 9 · PEAK & TEST

Your Code9 benchmarks

Test in week 9 while you're fresh. If you did the same tests at the start, write those numbers too — this page is your 9 weeks in one look.

BENCHMARK	START (OPTIONAL)	WEEK 9
Max Push-Ups One set, full range. Knee push-ups count — note which you did.		
Plank Hold Hold with perfect form — stop when the hips sag.		
2 km Time Trial Run, jog or brisk walk — log your time in minutes.		
1-Minute Squats As many full bodyweight squats as you can in 60 seconds.		

What changed?

That's Code9. Nine weeks, done. Log your results online too — your coach uses them to set up your next block.

WEEK 9

Your 9 weeks in one look

Write your working weight from week 1 next to your week 8 weight. Most people are surprised by this page.

	LIFT	WEEK 1 · KG × REPS	WEEK 8 · KG × REPS
01	**Bodyweight Squats**		
02	**Bent-Over Rows**		
03	**Side Leg Raises**		
04	**Shoulder Press**		
05	**Bicep Curls**		
06	**Chair Squats**		
07	**Standing Calf Raises**		
08	**Seated Leg Extensions**		
09	**Chair / Bench Squats**		

What feels easier now?

What do you want next?

Next step. Nine weeks done — that's Code9. Talk to your coach about your next block: the next level of this series, or a new goal.
