How to use this plan

This is your gym copy of the program: every session of the 9 weeks, phase by phase. Each training day has one page with a column per week. Fill it in on your phone or tablet, or print it.

Logging a session

☐ set to do ☑ set done

- Tick a box for every set you finish, write the weight in kg.
- Rate the session's effort 1–10 and add a note — pain, swaps, wins.
- Fewer reps than the target? Note it. That's your signal to keep the weight next week.

How hard should it feel?

- **5–6** · comfortable, 4+ reps left
- **7–8** · hard, 2–3 reps left
- **9** · 1 rep left
- **10** · nothing left — only on benchmark days

Each phase has its own target effort, shown at the top of every day.

Performance rules

Nutrition

A balanced diet with adequate protein, carbs and healthy fats. Hydrate well.

Sleep 7–9 hours

Every night. It's when the strength and the endurance actually get built.

Daily mobility

10–15 minutes every day — hips, ankles, thoracic spine — to prevent injury.

Recovery

Use massage, foam rolling and stretching to help you recover between hard days.

Heavy, not grinding

Low-rep sets should end with 1–2 good reps left. A grinding rep is a sign to stop the set.

Lift first, run second

Keep heavy leg days and hard runs at least 24 hours apart where you can.

Two deadlift days

Weeks 1–3 and 7–9 deadlift on Day 1 and Day 5. Still sore on Day 5? Drop 10% on the bar.

Pick your peak

Choose your goal now — a 5K time, a fitness race, a lift — and test it at the end of week 9.

Before you start

- Check with your doctor before starting if you have a heart or lung condition, high blood pressure, diabetes, joint problems or are pregnant — or if it's been a long time since you exercised.
- This plan uses barbell squats, deadlifts and bench press from week 1. Never lifted with a barbell? Start with Hybrid Base, or book a coached technique session first.
- Overhead squats and power cleans are technical: start with an empty bar and add weight only while every rep looks the same.
- Stop and seek advice if you feel chest pain, dizziness, unusual breathlessness or sharp joint pain.

My settings & starting weights

In your first week, go through every lift with a light weight and write down your setup — seat and pad numbers on machines, grip or stance on free weights — and the weight you start with. Next time you set up in seconds.

Every lift, every time

- **Machines:** line the moving joint up with the pivot (the coloured dot), pin all the way in.
- **Free weights:** same grip and stance every session — note it here.
- **Start weight:** one you could lift 3–4 more times than the target.

How to move

- **2 seconds** up · **1 second** hold · **3 seconds** down.
- Never let a weight drop or a stack slam.
- Breathe out as you push or pull.
- Pain (not effort)? Stop, lighten or shorten the range.

EVERY WEEK

Staying on track

Start each week here: read the line, do the one small action and tick it, and write your if · then plan for whatever could get in the way. Week 3 is where most people stop — the shaded rows are your milestones: week 3, halfway and the final week. R is the bonus Reset week.

Never miss twice
Missing one session is life. Missing two in a row is the start of quitting — so the session after a miss is the one that counts.

Plan it like a meeting
Decide the day and time for every session at the start of the week. “When I have time” never comes.

If · then
Name what could get in the way, and what you’ll do instead. “If I work late, I’ll train at 7 am.”

Bad sessions count
A short or light session on a bad day keeps the habit alive. Showing up beats a perfect plan.

WK	YOUR FOCUS · THIS WEEK’S SMALL ACTION	✓	IF · THEN

6	**“Strong isn’t a feeling. It’s a habit you’ve built.”** Check your progress: weight, one measurement, one photo.	☐	IF _____ THEN _____

8	**“The last weeks show who you’ve become.”** Plan your week 9: when you’ll test, and what you want to beat.	☐	IF _____ THEN _____
9	**“Nine weeks. Code9. Done — and just getting started.”** Test your benchmarks and write down your week 1 vs week 9 numbers.	☐	IF _____ THEN _____
